

~~TOP SECRET~~

24 October 1978

NOTE FOR MR. Robert Gambino

FROM:

1. This is  fourth shot at getting us to take on clearance accountability. I have discussed with Ted Shackley on three different occasions our reasons for not taking over the responsibility for keeping SCI Access Approval Records.

2. I propose that I write a note to Shackley giving my opinions and conclusions that I will not recommend this transfer of responsibility. Attached is my note.

3. If this is not acceptable, it might lead to a request to meet with you. Should that happen, let me know and I will give you a few additional groups to counter the best that  has to offer.
